

MASSAGE CHAIRS

firstclass SEATS

Now travelers can choose a first class seat at the airport.

Located throughout the airport, First Class Seats® by Smarte Carte® give travelers a relaxing way to spend time at the airport.

Designed specifically for commercial use, our massage chairs provide an affordable alternative for back massage therapy, offering customers a deep-tissue Shiatsu massage.

Our massage chairs provide comfortable soft seating offering travelers a more private space in a very public place. Customers can choose to take a nap, read a book, make a phone call, listen to their iPod® or just relax with their back massage.

Our first class seating improves passenger service and provides concession revenue for your airport. And, a Smarte Carte massage chair service is managed and maintained by your on-site Smarte Carte team, a service provider you know and trust!
