

Enterprise Management Unit SMARTER WHEELS®

(shown with electronics option package)

A stroller management service with advanced technology and unmatched customer convenience.

Make the shopping experience at your mall a pleasant one for your customers. The Smarte Carte Enterprise is the most advanced and easy-to-use stroller management unit available. This computerized management unit offers unmatched customer service features including credit card stroller rental, coin and bill acceptance and change making capabilities.

Its compact, portable design requires minimal floor space and permits strollers to be placed anywhere

your customers need them. The Enterprise keeps strollers orderly and available for use by motivating shoppers to return strollers for a reward.

A Smarte Carte stroller concession provides the equipment and staff needed to manage the service, reducing capital expenditures and labor costs while improving your customer service program. Invite your customers to shop longer with the Smarte Carte Enterprise stroller management unit.

Features:

- Accepts bills and coins and returns change with purchase.
- Automatically gives customers a partial refund when stroller is returned to any stroller management unit.
- LCD display provides step-by-step stroller rental instructions.
- Microprocessor counts coins/bills as they are inserted and provides the total on the LCD display.
- Compatible with Smarte Carte 1067 single, 1062 double, 1092 Smarty Bear™ and 1106 vehicle strollers, as well as Smarte Carte shopping carts.
- Optional overhead sign attracts the attention of customers and makes the stroller service visible from a distance.

The advanced electronics option package offers the convenience of credit card stroller rental.

Advanced Electronics Option Package:

- Option to accept major credit cards without a telephone line or LAN connection. Proprietary technology stores transactions locally.
- LCD display is able to provide instructions in multiple languages.
