

**SMARTE WHEELS®**

**Mold In Graphics®**

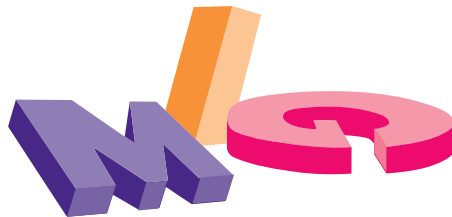

## Mold In Graphics® guarantee that your Smarte Wheels® strollers look great for the life of the product!

**S**marTE Wheels® strollers utilize Mold In Graphics® that are proven to not only last, but not fade, crack, chip or peel off. Mold In Graphic Systems' patented process embeds the graphics into the wall of our Smarte Wheels® strollers and protects them with a layer of plastic.

The result is stroller graphics that will withstand the harshest weather conditions, solvents,

chemicals and abrasion. And, they are UV resistant to maintain the true color and integrity of the design.

Mold In Graphic Systems® is recognized worldwide as the most durable graphic system available.
