SL-1000™

ELECTRONIC LOCKERS

*smarter*carte

A robust locker system with multiple access and payment options.

Smarte Door™ sensors detect presence of items in lockers.

The LCD Screen provides simple, easy-to-understand instructions for your guests.

Keyless system and computerized operating efficiencies reduce labor and maintenance costs.

Daily reports can be printed or transferred digitally from the pay point.

Date	Locker No.	Usage
06/20/2012	01-01	1	0	0	0

06/20/2012	01-10	1	0	0	0

The SL-1000's low pay-point-to-door ratio ensures shorter lines when your facility gets a rush of guests in the morning.

Q Why are locker sensors so important?

A Some customers will invariably forget items. Sensors prevent renting that locker.

Q Can RFID be integrated with RFID at my facility?

A Yes. We use standardized RFID technology.

Q What if I want to upgrade later to Locker Link™?

A SL-1000 is designed to accommodate an upgrade to SmarteCarte's Locker Link system.

Locker type	DUAL READER	BAR CODE TICKET	RFID WRISTBAND
How it's rented:	Automated. At the locker paypoint.	Automated. At the locker paypoint.	At a manned POS.
How it works:	Customer selects their own four or six digit PIN code. Repeat the PIN. Door pops open.	Token or coin is inserted in paypoint. Paypoint prints bar code ticket. Door pops open.	Wristband is sold at POS. Customer holds wristband up to paypoint. Door pops open.
It's right for your facility if:	You don't want to be bothered by having to sell wristbands or tokens.	Your customers are addressing themselves to a manned POS and you want them to have "one stop shopping."	Your customers are addressing themselves to a manned POS and you want them to have "one stop shopping."

Single or Multiple entry available for all.

Q What venues are right for SL-1000?

A Water parks, theme parks, ski resorts, and other facilities where speed and convenience are essential but locker networking is not required.

Q Can the SL-1000 be placed outdoors?

A Yes, provided there is a roof and an awning overhang of at least 32 inches.

Q Can the locker be free to guest?

A Yes. This may be appropriate for ride lockers.

Let the world leader in electronic lockers show you how we can enhance your guests' experience, and increase revenues with a tailored solution.

SPECIFICATIONS

HOW WE WORK

Smarte Carte operates on a concession contract basis for most products and locations. We invest in and are responsible for the maintenance of the Smarte Carte equipment. Smarte Carte retains ownership throughout the term of the contract. We also employ the operations staff and management needed to ensure a first class service every single day. Smarte Carte pays concession fees, typically a percentage of sales, to you, the real estate owner. Smarte Carte in some cases is also able to lease equipment. **Contact Smarte Carte for more details.**
