## Digiboo. Movies on the Move.

- Digiboo is a digital retail kiosk that lets customers select movies or TV shows from a touch screen display, download rapidly, and watch on a tablet, smart phone, or Windows-enabled PC.
- Digiboo offers over 800 movies and TV shows, including the latest new releases and a vast catalog of favorites.
- Movies are downloaded directly from the kiosk, from the kiosk's dedicated WiFi connection, in 3-10 minutes, or to a USB drive in as little as 30 seconds. No internet connection is required for playback.
- Movies can be played on iPhone, iPad, Android, Kindle Fire, and Windows 7 PCs and laptops.
- Movies can be rented or purchased. Rental customers have 30 days to begin watching their movie, and 48 hours to watch once they begin. Purchasers keep their movies or TV shows to watch forever.
- Movies and TV shows are always in stock, and the digital file needs never be returned.
- The small footprint allows the Digiboo kiosk to be placed in almost any environment. Requires only power and internet connection.
