

LOCKER LINK 2.0™ NETWORKED ELECTRONIC LOCKER SYSTEM

Another major  
leap forward in  
innovation and  
technology

# LOCKER LINK 2.0™

NETWORKED ELECTRONIC LOCKER SYSTEM

*smartecarte*

Smarte Carte presents the **ultimate locker system** to provide **security** and **convenience** to your guests and convert their delight into **bigger revenue streams**.

The process is simple:

**How it works:** Locker Link wirelessly networks all of the lockers, wristband dispensing kiosks, and manned POS in your facility. Individual guests and groups can jump from locker to locker throughout the day for a single price.

It's simple. It's fun. It's a major leap forward.

**Q** Want to accommodate families and groups?

**A** Locker Link can issue multiple wristbands for a single multiple-use locker.

**Q** Tired of lost keys and expensive RFID wristbands?

**A** Locker Link works with a simple bar code wristband at a fraction the cost of RFID wristbands.

**Q** Want to streamline pricing?

**A** Locker Link can easily tweak pricing for seasonal, daily, hourly and other variations.

Locker Link is the best locker solution for your facility if...

- You want to integrate park technologies.
- You want to reduce labor and lines with simple-to-use, automated kiosks.
- You want to convert the locker experience from a "Necessary Hassle" to a "Cool Technology" that every guest can easily understand and enjoy.
- Your guests need access to lockers at different locations inside your facility.
- You haven't found an acceptable way to create a safe thrill ride without "nickel and diming" your guest.
- You want to provide lockers that work for all-day rentals or moving ride lockers.
- You want to preserve your capital and management resources for your core business—not lockers.
- You want to optimize customer service and revenue.
- You are interested in a concession or lease program.

Locker Link's highly intuitive functionality masks a broad and sophisticated platform that offers unprecedented flexibility for:

- Full integration into current POS and ticketing systems.
- Facilitating simple and quick locker rentals at thrill rides where you don't want your guests to bring potentially hazardous belongings.
- Purchasing locker rentals in advance from your website.
- Offering seasonal, group, and season pass holder discounts.
- Dramatically reducing cash handling.
- Cross-promoting your facility's other offerings, including food and beverage.
- Tying into a cashless system for the entire park, which will drive sales and reduce shrinkage.

**LOCKER LINK KIOSK** can be configured to accept credit cards, private label cards, bills, or to read barcode coupons.

**LOCKER LINK SYSTEM ACCESS POINT** can work with barcodes or RFID including current park media such as cashless or park entry wristbands and tickets.

**Q Can I use current wrist bands in the park?**

**A** Yes, Locker Link can integrate with current park media using RFID barcodes or QR codes.

*"Smarte Carte integrated Locker Link with our new POS system seamlessly. Guests have experienced a new level of locker service and are excited about using the product. The detailed reports are outstanding. Locker Link is a great solution for any park looking to maximize revenue and customer experience."*

—Jim Kunau,  
General Manager Hurricane Alley Corpus Christi, TX

# A robust locker system with multiple access and payment options.

- 1** Smarte Door™ sensors detect presence of items in lockers.
- 2** Light on top of lockers indicate if there are lockers available at this bank of lockers.
- 3** System can work with barcodes or RFID, including current park media such as cashless or park entry wristbands and tickets.
- 4** 7" Touchscreen provides simple instructions and allows for selling activities at the locker banks.
- 5** Daily reports can be generated to review usage and revenue.
